Bendigo Audio Visual Pty Ltd

INFORMATION SHEET

Automatic School Bell and Music System.

Having the problem of students not getting to class on time? Not hearing the bell when in the play ground? Bendigo Audio Visual can customise a solution for your needs with a Bell and Music timer

system. In this example we have designed a simple, easy to use automated system which will be help get your students back to class on time whilst also adding some fun in the playground. Installation should also include a CD and USB/MP3 player which can play music automatically at certain times. Whilst if a special event is taking place, you have to option to manually over-ride and play music whenever you want.

☑ **Allows for Children's Music to play over school PA system with CD or MP3.**

☑ **Can be automated with up to 50 different events.**

☑ **Allows for music to play before and/or after the bell rings.**

☑ **Easy to Reprogram and Change System Time for Daylight Savings.**

☑ **Bell Timers and Amps Australian Made.**

Imagine having student music play which was recorded from a Music Class Project! This system makes it an easy reality with the capability to play MP3 / WMA music files saved to a USB memory stick. This can literally allow for hundreds of songs to be played so each time the music system automatically starts different music will be playing. Consequently you can also play standard CDs.

This system complies with AS1670.4. 2004 in regards to Evacuation and Alert Tones. These can be manually triggered from the front panel or remotely via contact switch. This panel also includes a manual bell trigger switch for ad hoc events.

Paging and wireless microphones can also be connected when needed.
